TESTIMONIALS

“

Roman wears his helmet everywhere (indoor and outdoor) and he never finds it uncomfortable or too warm. I am constantly stressed, but I feel so much better knowing he can still do everything he wants to do and is protected with his cute helmet. - Hilde H

My son in law has epilepsy. He was looking for protection for his head, but didn't like the look of traditional helmets. This was perfect. Great product. - Joni r M

We love the product. I love that it doesnt look like a medical device. That is important when it is a 12 year old wearing it. - Melissa C.
